B. Cefacia Policy. Because of health risks to people with cystic fibrosis (CF), individuals with CF who have had a confirmed positive sputum culture for *Burkholderia cepacia* complex **shall not attend** events sponsored by the Cystic Fibrosis Foundation. This policy is necessary because *B. cepacia* is contagious to individuals with CF. *B. cepacia* can be transmitted through casual contact or close proximity with infected individuals. *B. cepacia* infection in a person with CF can cause serious respiratory illness and, in some patients, may result in rapid decline in lung function, possibly leading to death. While this policy should reduce the risk of *B. cepacia* cross infection, there still might still be some individuals with *B. cepacia* in attendance. *B. cepacia* is not a known health risk to individuals without CF who are otherwise healthy. The CF Foundation supports research to identify new treatments for *B. cepacia*. For alternative ways to participate and for more information regarding this policy, please contact the CF Foundation at (800) **FIGHT-CF** or visit www.cff.org. Consult your CF Foundation-accredited care center physician with medical questions.
