Centerbridge Partners, L.P.

Amy Weinberg

John S. Weinberg  
Goldman Sachs

*(Committee in formation)*

Because of risks to people with cystic fibrosis, individuals with a confirmed positive sputum culture for *Burkholderia cepacia* complex shall not attend this event. This is because *B. cepacia* can be passed between individuals who have CF through close proximity. *B. cepacia* infection in a person with CF can cause serious respiratory illness and, in some patients, may lead to death.

Despite this policy, there might still be some individuals with *B. cepacia* in attendance. *B. cepacia* is not a risk for otherwise healthy individuals. Learn more about alternative ways in which a person with *B. cepacia* can participate, or call the CF Foundation at (800) FIGHT-CF. Consult your CF care center physician with medical questions.

The official airline of the Cystic Fibrosis Foundation:
